Item 2 of the provisional agenda
UNFPA

UNITED NATIONS POPULATION FUND

REPORT OF THE EXECUTIVE DIRECTOR FOR 1999

Corrigendum

Paragraph 26 should read as follows:

26. UNFPA's assistance to China is designed to help the Government implement a client-centred approach to the provision of reproductive health services in line with the Programme of Action of the International Conference on Population and Development (ICPD). For this purpose, the Fund is supporting activities in 32 counties that include enhancing the understanding of policy makers and service providers on the benefits of people-centred quality reproductive health services, based on the principle of free and responsible choice. Information, education and communication (IEC) materials have been distributed to each household in the counties in which UNFPA is working in order to disseminate information on available services and to encourage individuals and couples to take advantage of them.
